

## State Budget Update

---

The State is facing a \$25.4 billion budget deficit. Governor Jerry Brown has proposed a budget that includes a mix of cuts and tax extensions to address this deficit. In late February, the Senate and Assembly had each adopted a budget framework based on the Governor's proposal.

The Legislature is expected to have a final budget proposal to the Governor by March 10, 2011. The final proposal is expected to include language regarding proposed tax extension measures that may appear on a June 2011 special election ballot, as well as cuts to be taken if the tax extensions are approved by the voters.

A final State Budget will not be signed until after the special election when the Governor and the Legislature understand the outcome of the special election. Without approval of the proposed tax extension measures a balanced budget is expected to rely exclusively on cuts to state programs.

Outlined below are some major issues related to the budget:

- The budget proposes delaying all General Obligation bond sales until fall 2011, which is estimated to provide a savings of \$248 million. This delay is not expected to impact the State's existing commitments
- The Budget proposes an \$11 million General Fund cut to the Department of Parks and Recreation in the year 2011-2012, and a \$22 million cut in future years
- The Budget proposes a major realignment of government functions shifting power from the state to local agencies to provide essential services and associated fiscal responsibility. This realignment would include a phasing out of Redevelopment Agencies beginning in 2011-2012
- The Budget proposes putting an initiative on the June 2011 Special Election ballot that would extend current tax rates for five years. Extension of the current tax rates will lessen the cuts necessary to achieve a balanced budget for fiscal year 2011-2012

## Bond Update

---

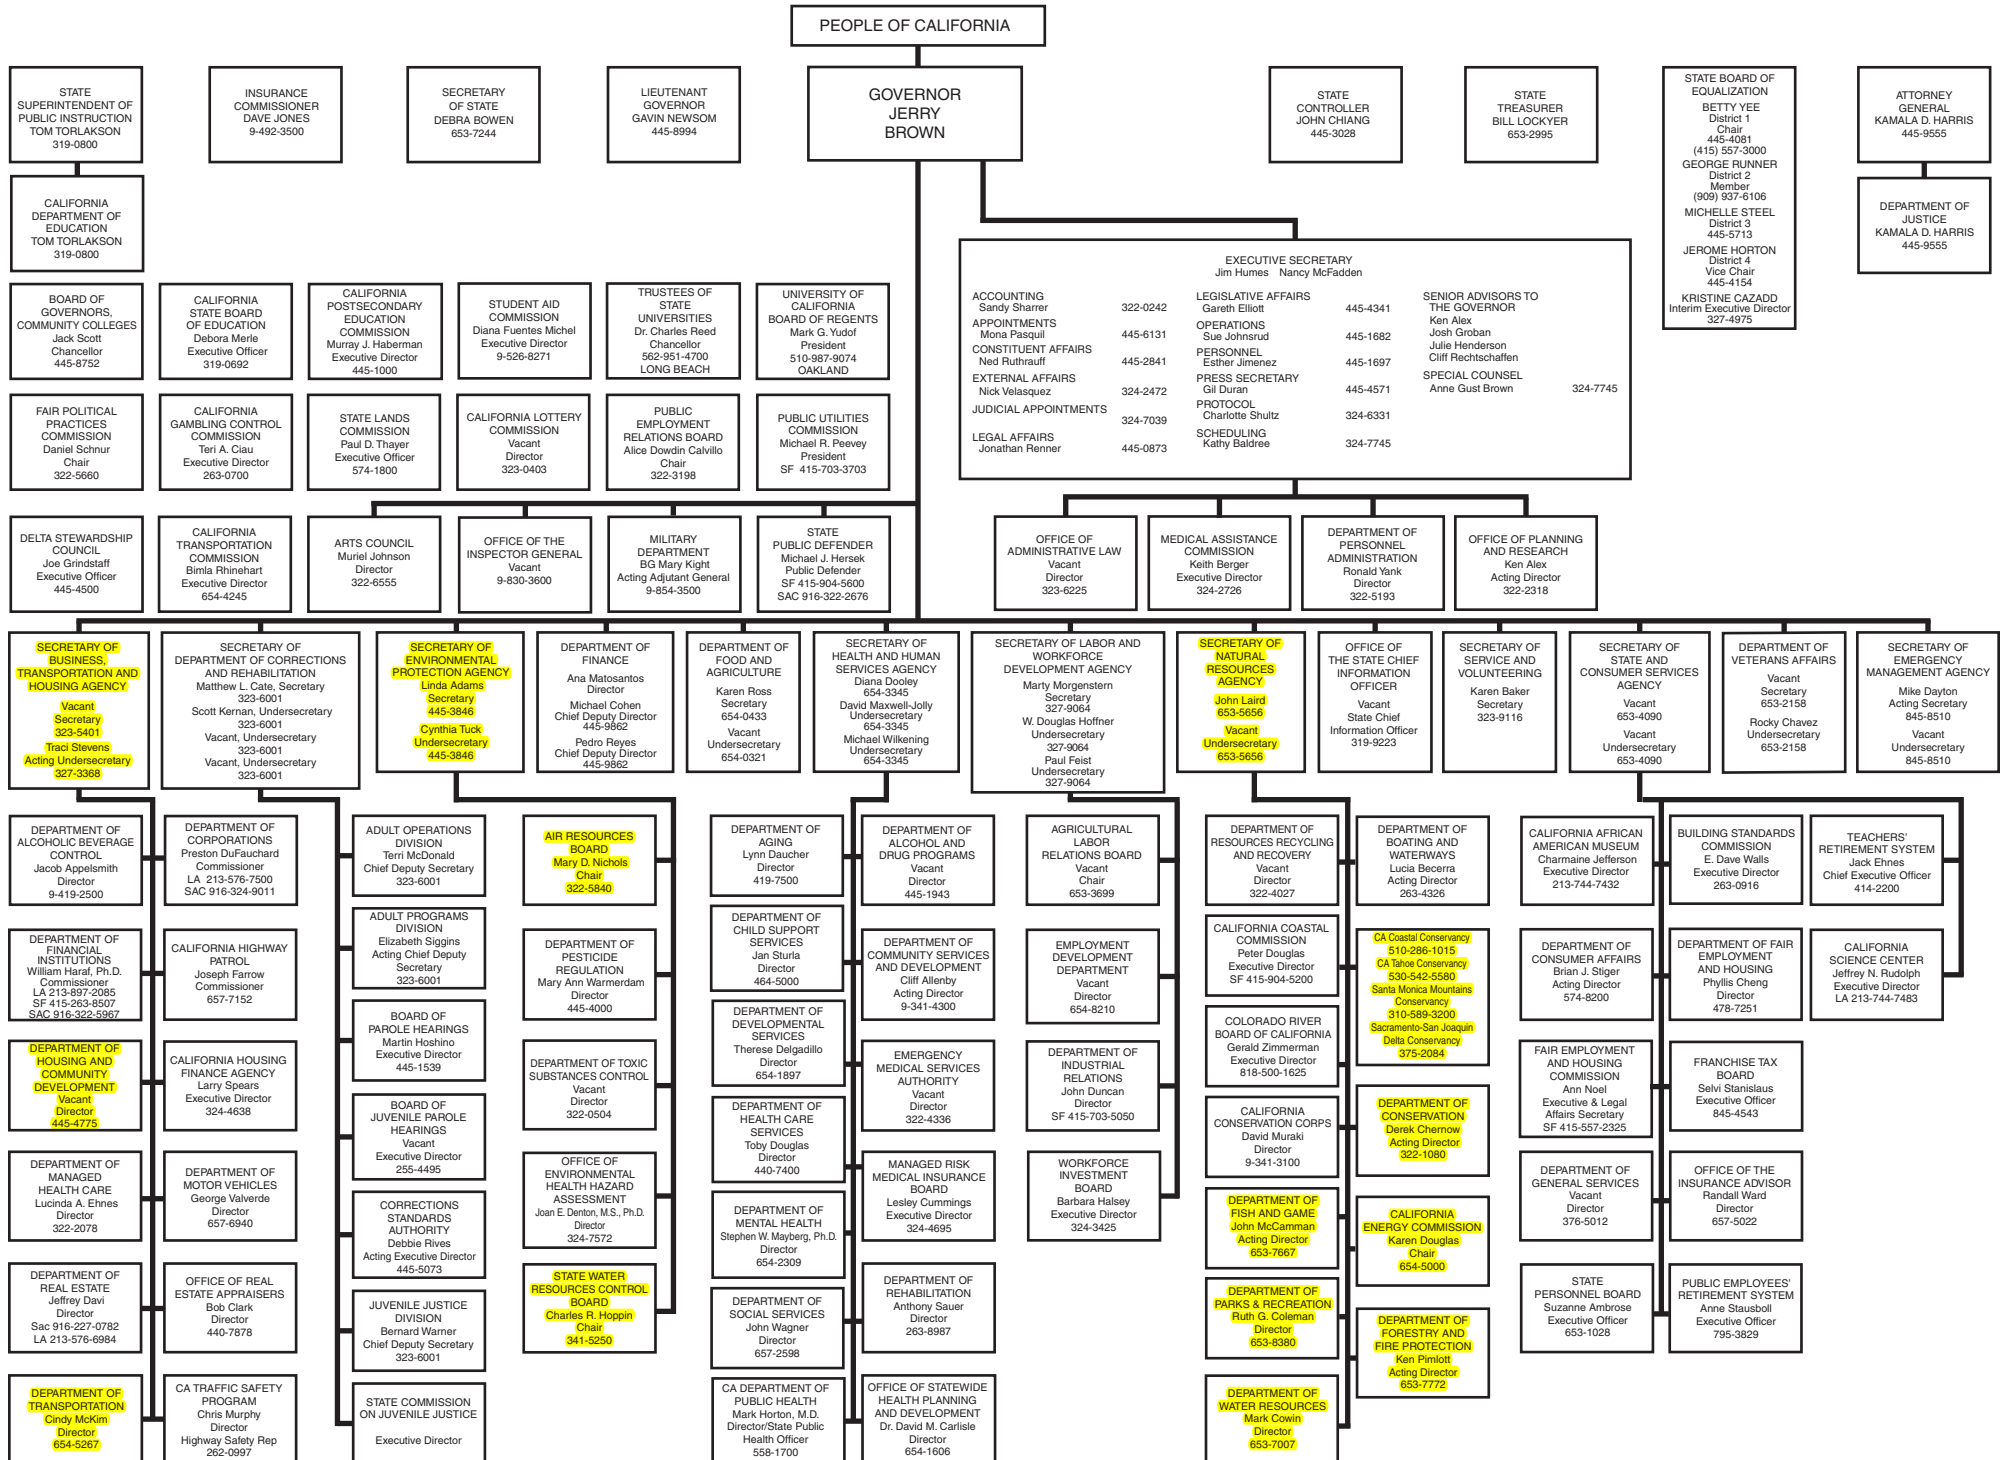

### Back ground

- In December 2008 the Department of Finance issued a stop work order on bond funded resources project due to the State's inability to sell general obligation bonds and need to preserve cash (also known as the bond freeze)
- Prior to the freeze, bond-funded resources projects were allowed to move forward using loans from the Pooled Money Investment Account (PMIA), which would be repaid through subsequent bonds sales
- Following the freeze, a new process for supporting bond-funded resources projects was developed. This process requires that bonds be sold before a project moves forward and that cash be available to the agency before a commitment is made

### Challenges

- Long-term bond costs increase under the new bond sale process, because the State incurs debt-service costs earlier than under the former bond sale process using the Pooled Money Investment Account
- After a successful bond sale, the Department of Finance is distributing cash to agencies based on priority and need; however, it is unclear what the priorities are
- The new bond sale process has led to a great deal of uncertainty and confusion amongst stakeholders, state agencies, and funding partners

# CALIFORNIA STATE GOVERNMENT • THE EXECUTIVE BRANCH

# Available Funding 2011

Below is a breakdown of the current or anticipated availability of funding for a variety of programs that may assist with acquisition, habitat restoration, and development of parks, greening, and recreational amenities.

| Agency                             | Program  | Remaining Funds   | Notes  |
|------------------------------------|--|---|--|
| <b>Wildlife Conservation Board</b> | Wildlife Restoration Fund  | \$883,000   | Please contact the Wildlife Conservation Board directly to determine which program is most suitable for your project.  |
|                                    | Habitat Conservation Fund  | \$ 70.5 million   |  |
|                                    | Prop 12  | \$ 11 million   |  |
|                                    | Prop 40  | \$ 98.4 million   |  |
|                                    | Prop 50  | \$ 95.6 million   |  |
|                                    | Prop 84  | \$ 339.9 million  |  |
| <b>Coastal Conservancy</b>         | Prop 12  | \$ 14.8 million   | Please contact the State Coastal Conservancy to determine which program is most suitable for your project.   |
|                                    | Prop 40  | \$ 5.3 million  |  |
|                                    | Prop 50  | \$ 2.7 million  |  |
|                                    | Prop 84  | \$ 93 million   |  |
| <b>Resources Agency</b>            | River Parkways (Prop 84)   | \$28.4 million  | The Resources Agency anticipates requesting proposals for the River Parkways Program in fall 2011. This will likely be the final funding cycle for the program.  |
|                                    | Environmental Enhancement and Mitigation Program                           | \$ 10 million   | This program receives an annual appropriation through the State Budget Process.  |
| <b>Strategic Growth Council</b>    | Sustainable Communities Planning (Prop 84)                                 | \$ 44.5 million   |  |
|                                    | Urban Greening PROJECTS (Prop 84)<br><br>Urban Greening PLANNING (Prop 84) | \$ 46.8 million<br><br>Of the funds remaining up to \$13.7 million may be used for Urban Greening PLANNING grants | The Strategic Growth Council has requested concept proposals for the Urban Greening Program.<br>· Concept proposals for Urban Greening PROJECTS will be accepted from April 1 through April 30, 2011.<br>· Applications (no concept proposals) for Urban Greening PLANNING grants will be accepted April 1, 2011 through May 15, 2011. |
| <b>Department of Parks and</b>     | Nature Education Facilities (Prop 84)                                      | \$ -  | Funds are exhausted  |

# Available Funding 2011

| Agency  | Program  | Remaining Funds                                      | Notes   |
|---|--|--|---|
| <b>Recreation</b>   | Statewide Parks Program (Prop 84)                            | \$ 184 million                                       | The Department of Parks and recreation will be hosting workshops regarding this program beginning in February.<br><br>Applications for this program are due July 1, 2011. This will be the final funding cycle for the Statewide Parks Program. |
|   | Habitat Conservation Fund                                    | Approximately \$2 million available annually         |   |
|   | Land and Water Conservation Fund                             | Approximately \$1.5-\$2 million annually             | Amount available depends on federal appropriation   |
|   | Recreational Trails Program                                  | Approximately \$3-5 million annually                 | Amount available depends on federal appropriation   |
| <b>Department of Fish and Game</b>  | Fisheries Restoration Grant Program                          | Approximately \$10-15 million available annually     | Amount available depends on federal appropriation and state matching funds  |
|   | NCCP Local Assistance Grants                                 | Approximately \$550,000-\$600,000 annually           | Amount available depends on annual state appropriation  |
| <b>Santa Monica Mountains Conservancy</b>                                 |  | Approximately \$4 million remains to be appropriated | It is unclear how much of this funding will be available for projects.  |
| <b>Lower Los Angeles and San Gabriel Rivers and Mountains Conservancy</b> |  | Approximately \$2 million remains to be appropriated | It is unclear how much of this funding will be available for projects.  |
| <b>Sierra Nevada Conservancy</b>  |  | \$ 10 million  |   |
| <b>Department of Water Resources</b>                                      | Integrated Regional Water Management - Implementation Grants | \$ 472.5 million                                     |   |
|   | Integrated Regional Water Management - Planning Grants       | \$10 million   |   |
|   | Flood Corridor Program                                       | \$ 75 million  | The Department of Water Resources is currently accepting applications for this program. This will likely be the final funding cycle   |

# Available Funding 2011

| Agency                                     | Program  | Remaining Funds                          | Notes   |
|--|--|--|---|
|  |  |  | for this program.<br><br>Applications must be submitted by February 25, 2011.   |
|  | Stormwater Flood Management                    | Approximately \$212 million              | The deadline to submit proposals to the Department of Water Resources for this funding is April 15, 2011.   |
|  | Urban Streams Restoration                      | Approximately \$9 million                |   |
| <b>State Water Resources Control Board</b> | Storm Water Grant Program                      | \$ 90 million                            |   |
|  | Clean Water State Revolving Fund               | Approximately \$200-300 million annually |   |

**PROGRAM DESCRIPTION:**

The State Coastal Conservancy provides grants for projects that provide public access to coastal areas, protect and enhance coastal resource and agricultural lands, and restore urban waterfronts.

**EXAMPLES OF ELIGIBLE PROJECTS:**

- Acquisition of land to protect coastal watersheds, and other natural resources
- Restoration and enhancement of wetlands, coastal watershed areas, and other coastal habitat areas
- Development of trails, and other facilities that provide public access to coastal areas
- Development and rehabilitation of urban waterfronts that provide or enhance economic opportunities for coastal areas
