

Climate Change and Sustainability

PMC is committed to promoting and supporting projects, plans, and programs that advance economic vitality and environmental sustainability. We partner with our clients to prepare strategies to reduce greenhouse gas (GHG) emissions and respond to climate change. PMC provides technical expertise to quantify and forecast GHG emissions, to engage stakeholders, and to develop strategies to reduce energy consumption and GHG emissions. PMC offers a full range of planning services related to sustainability, energy awareness, and climate change.

Climate Change and Sustainability Planning

- Greenhouse Gas Emissions Baseline Inventories
- Climate Action Plans (CAPs)
- GHG Reduction and Mitigation Measures
- Climate Change, Energy, and Sustainability General Plan Elements
- CEQA-Qualified GHG Reduction Strategies
- Climate Change Adaptation Strategies
- Sustainable Communities Strategies
- CAP implementation, monitoring, and reporting
- Public education and engagement
- Energy efficiency and conservation strategies
- Grant applications and management

PMC offers a broad spectrum of services in climate change and sustainability, urban design and revitalization, environmental analysis, community planning, contract staff services, public engagement, transportation, housing and redevelopment, and other municipal needs to cities, counties, non-profit organizations, and special districts throughout California and beyond.

Select Climate Change Related Qualifications

Client	Scope of Services
City of Alameda	Greenhouse Gas Emission Reduction Measure quantification and support for incorporation into the City's Climate Action Plan.
City of Elk Grove	Climate Action Plan and Sustainability Element General Plan of the Update structured as a Qualified GHG Emissions Reduction Strategy per CEQA Guidelines Section 15183.5(b)
City of Novato	Climate Change Action Plan and Energy Efficiency and Conservation Strategy
City of Palmdale	Climate Action Plan, Community-wide and Municipal Operations Greenhouse Gas Inventory, and Energy Efficiency and Conservation Strategy
City of Pinole	Community-Wide and Municipal Operations Greenhouse Gas Inventory, General Plan Update, General Plan EIR, Zoning Code Update
City of Rocklin	Community-Wide Greenhouse Gas Inventory, Climate Action Plan, General Plan Update EIR, support on developing a Qualified GHG Emissions Reduction Strategy per CEQA Guidelines
San Bernardino County	Greenhouse Gas Reduction Plan Supplemental EIR in compliance with the California Attorney General's Settlement Agreement
City of San Carlos	Climate Action Plan and General Plan Update/GPU EIR integration assistance, the first CAP to meet the BAAQMD guidelines for development of a Qualified GHG Emissions Reduction Strategy and CEQA Guidelines Section 15183.5(b)
